

Clearing Lands For Sugar Cane

There are spots in new land where growth reaches the proportions of trees, as in the scene above. The D-7 shown handles the growth of this size easily, piling it, when uprooted, for burning.

Baseballers Ages 8-14 Register At High School Today At 5:30 P. M.

All boys 8 to 14 years of age who wish to play in what has been Little League Baseball should appear at the high school activity room at 5:30 this afternoon, along with parents, so that registration may be completed.

Fathers of the boys who are interested in baseball are asked to be present in order to help get the diamond in shape for the coming season, beginning May 1956.

Also, anyone interested in coaching younger boys, the arm hand League, being organized for the first time this year, is asked to contact Ray Wilkinson, President or Milton Glise Secretary-Treasurer of the organization.

President Wilkinson says, "We are badly in need of one mother who will take full charge of the concession stand to see that mothers are present according to schedule for each game. Also someone must be in charge of purchasing supplies."

New bleachers have arrived, according to Mr. Wilkinson, and have been erected. Over the weekend a new backstop will be put in place at the Little League Park at the high school.

Nat King Colbert At Case Rate Store

Case Rate Grocery, live-wire promoters of varied advertising ideas, will feature a direct radio broadcast from their store this Friday evening from 5 o'clock to 6:45, according to an announcement by store manager Lenwood Fuller.

WHIM will set up quarters in the store and will feature Nat (King) Colbert as disc jockey. Drawings for free prizes will be held throughout the program. "Make this your time to shop," Lenwood suggests. "Also be sure to save your 'Silver Dollars' for a special promotion coming up in the near future."

Oak Ridge Science Teacher To Visit Belle Glade High School Next Week

D. Gene Randolph, "traveling science teacher" from Oak Ridge, Tennessee - the famous Atomic City - will visit Belle Glade High School during the week of May 1 to present a series of special lecture-demonstrations on a variety of scientific topics.

Mr. Randolph is one of five science teachers now touring the 140 high schools in nine states, principally in the Southeast, as representatives of the Oak Ridge Institute of Nuclear Studies (ORINS), which conducts the Oak Ridge Science Demonstration Lecture Program under the sponsorship of the National Science Foundation in cooperation with the United States Atomic Energy Commission.

Glades Pioneer T. Lloyd Bass Buried Wednesday

Thomas Lloyd Bass, 66, 1164 N.W. 16th St., Belle Glade, well known pioneer harvester died Sunday night at St. Mary's Hospital, Palm Beach, after a brief illness.

A native of Punta Gorda, he came to Belle Glade 27 years ago. His father, Captain Tom Bass was a Glades Pioneer and operated the first fleet of boats, passenger and mail in the area. He resided in Pahokee.

He was affiliated with the Methodist Church and was a member of Masonic Lodge No. 273, Belle Glade.

Survivors include his widow, Elizabeth (Bess) Bass, Belle Glade; a daughter, Mrs. Doris Spooner, Bradenton; his mother, Mrs. Bertha Stirling of Sanibel Island and Pahokee; one brother, T. A. Bass, Belle Glade; three sisters, Mrs. Ralph Steele, Lake Worth, Mrs. Roy Segree, South Bay, and Mrs. William Howard, Pahokee.

Funeral services were conducted at the First Methodist Church, Pahokee, Wednesday at 10 a. m. with the Rev. Ben Rider of Riviera Beach officiating. Interment was in Hillcrest Memorial Park, West Palm Beach.

Palbearers were James Koffman, Kelly Willis, L. P. Pearson, C. A. Thomas, Billy Rogers and Ed Marlowe.

Honorary Palbearers were Ronnie Moore, Addison Heflin, Louis Kelson, Murray Weiss, Elbert Hester, Jay Smith, Terry Sellers and A. R. Grigsby.

Williams-Wetherington was in charge of arrangements.

"Divide The Lake" Say Some Counties

The Legislature has increased considerably with the completion of the third week of the session. Total number of bills introduced, places legislature over ten days ahead of similar period in 1959.

A bill attempting to divide Lake Okechobee and take it away from Palm Beach County has been introduced by representatives of Martin, Okechobee, Hendry and Glades counties. Emmett Roberts reports that it will be defeated.

"We are not in a position to divide the lake," says a representative of the county. "The lake is a natural resource and should remain as such."

Small business is expected to gain an advantage from President Kennedy's announced policy to award a greater share of the defense contracts to them.

Senator Smathers has invited the Secretary of Defense to appear before his committee with regard to the award of contracts to small business, with the assurance that the Senate will act on the bill.

Use Of Auditorium Asked By Rebekahs

Acting City Manager Anderson informs us that the first applicant for use of the City Auditorium is the Belle Rebekah Lodge No. 21.

They ask for the first and third Tuesday nights of each month.

City Manager's Job Has 32 Applicants

Finance Director and Acting City Manager Frank Anderson reports that the City has received more than 30 applications for the position vacated by Cleveland Talmadge.

Personal visits from applicants are in order and interviews are being held by the Commission.

PB County Adds One Legislator In Proposed Reapportionment

Representative Roberts reports that the Legislature has okayed the reapportionment bill and it will be submitted to the House for its final decision of '62.

Under this proposal there will be 48 senatorial districts for the entire state, with five in the general south Florida area.

A 104-member House, for an increase of nine members, will provide for one additional member from Palm Beach County. The more populous counties got these added members.

Mr. Roberts says, "Although not making all of the requirements of a fair reapportionment, it is an improvement over what was in effect in the past."

The pace of the legislature has increased considerably with the completion of the third week.

With regard to "high cost of right of way," the report says "speculation, guaranteed attention of cases, some employees have been fired, some reprimanded."

The committee says the system is wrong, and proves it with testimony.

The committee recommends the enactment of laws which will make it next to impossible to have a repetition of these scandals.

It recommends: 1. Creation of the position of State Highway Commissioner appointed by the State Cabinet and the Governor; He would be directly responsible for engineering, right-of-way acquisition and personnel. The Road Board would be a policy-making board.

No-accounts, kind of political hacks and soft-jobs would be the Board members.

2. Create an Independent Testing Division. As Assistant State Highway Engineer in Charge of Testing he would be entirely independent of construction division, but would report to the Commission.

(Continued On Page Eight)

Where Is The Money? Legislature Asking

When asked about Boca U. and source of tax money for needed appropriations, Representative Roberts says:

Appropriation for Boca Raton University still remains a question as estimate of state revenue for the next two years is lower than previous projection. We are hopeful that some funds will be available for a start, however. At the present time the major question facing the legislature is in the field of appropriations and tax measures.

There is some talk of a special tax session although this depends upon whether the appropriations committee can resolve the budget.

Smathers Opposes Passenger Tax

Senator Smathers is again opposing the war-time tax on passenger travel, with the position that such a tax greatly affects Florida with its tourist trade.

Although I was successful two years ago in the passage of legislation removing the transportation tax on property, the House would not approve a bill passed by the Senate removing the tax on passenger travel.

At the present time the legislature is in the field of appropriations and tax measures. There is some talk of a special tax session although this depends upon whether the appropriations committee can resolve the budget.

At the same time the legislature was under consideration, a compromise measure was passed by the Congress continuing the tax June 31st of each year set as an expiration date.

This year, I will again seek to have the tax abolished.

Small business is expected to gain an advantage from President Kennedy's announced policy to award a greater share of the defense contracts to them.

Senator Smathers has invited the Secretary of Defense to appear before his committee with regard to the award of contracts to small business, with the assurance that the Senate will act on the bill.

Improved Hospital Facilities Will Cost Money; Two Proposed Plans Insure Modern Facilities

Glades hospitals have been very much in the news recently with proposals for mergers of areas and facilities, and the need for some definite action towards securing for the entire Glades the type of medical and hospital facilities that the population deserve and want.

For the benefit of the public we have sought information that's reliable. One source is the Chairman of the Board of Southwestern PB County Hospital District, Herman L. Close.

Belle Glade Jaycees Host District Caucus At Country Club Sunday

District Vice-President George Jacksohnville. W. Ransley will officially greet delegates to the Eighth District, Florida Jaycees, Sunday morning at 9:30 in the auditorium of the Belle Glade Country Club.

State President L. M. "Toony" Johnston will be accompanied to the caucus by National Vice-President Dr. Herb Stevens and to the President's breakfast at the Cottage Grill, to officially open the festivities.

Listed among the items of business for the all-day meeting will be selection of delegates for the district to the State convention in Jacksonville in early May.

"Speak-up" contest for the 1st year Jaycees will be a highlight for the district meeting and a representative will be selected to participate in the state-wide contest to be held in

A Spring Music Concert, expected to be an annual event, will be held at the high school gym Friday night, April 28, at 8:00 p. m.

The band, under the direction of Frederick Stevens, will play "Emblem of Unity" and "Band Director" marches. Von Suppe's "Das Posthorn" overture, and two numbers, featuring the trumpet section: "The Boyfriends" and "Dancing Caballero."

Merry Tetter will direct the chorus in Mozart's "Ave Verum Corpus" Schubert's "To Music" and "To A Wild Rose" by MacDowell, plus several popular and novelty numbers, including "Dry Bones."

Soloists for the concert will be Annie Powell and Bobbette Crews, both seniors and both well-known to Belle Glade audiences. A mixed quartet and a "Beauty Shop" quartet will also perform.

Band and chorus will combine to present a finale by performing "Patriotic Fantasy," a medley of George M. Cohan tunes.

Tickets are 40c and 75c and can be purchased from any band or chorus student. Proceeds will go to the school music department.

Barbara Stone Crowned Harvest Queen For 1961

Harvest Queen Barbara Stone (center) and her attendants Sonja Figueroa (right) and Margie Hunt (left).

Lovely Miss Barbara Stone was selected to reign as Harvest Queen for 1961. When 33 beautiful girls competed for the honor at Belle Glade Jaycees' 8th Annual Contest held at Belle Glade High School last Saturday night.

Barbara is the daughter of Mrs. Beulah Stone, Belle Glade, and Arthur C. Stone, Ft. Pierce.

Runners were Miss Sonja Figueroa, Belle Glade, and Margie Hunt, Pahokee.

No one present could have envied the judges who were faced with making the difficult decision when the 33 beautiful girls each in turn made their entrance before the largest crowd ever assembled for this annual event.

The judges were Sheriff Killenberry, West Palm Beach, Jack Talbot of Palm Beach, Business College, "Miss Boynton" Beulah Stone, Belle Glade, and the Jaycee State President L. M. "Toony" Johnston.

Named in the top twelve by the judges were Joyce Kirshon, twirling presentations.

When asked if this district could secure buildings and facilities to conform with requirements of the Accreditation group, as well as the Hill-Burton Plan, Mr. Close said:

"Yes, the Southwestern Palm Beach County Hospital District CAN come up with a modern 75-bed hospital, together with care facilities-operating rooms, delivery rooms, and other facilities - conforming to the requirements of the Joint Commission on Accreditation and the Hill-Burton specifications, for a total capital outlay of ONE million to \$1,350,000, with 40 percent participation by Hill-Burton funds."

Mr. Close's figures are for 75 beds, together with Core Facility for 100 beds recommended by federal and state men, all new, (maximum) \$1,350,000.

"The present Belle Glade hospital site is fairly adequate and attractively landscaped" is an official opinion. The Belle Glade site is 15 acres and, many larger hospitals are constructed on less than ten acres of land.

The figure of \$18,000 per bed, in the above, has been declared "more than sufficient" by competent authority.

Mr. Close advances this theory: Following the opinion of federal and state inspectors, the present building could be made to conform to the most rigid specifications of Hill-Burton and accreditation, for patients beds, toilet facilities and service areas.

The building containing Core Facilities, and 40 beds would be erected, all new; then, when the present building is vacated, reconstruction to fire-proof as required, additional bath and toilet facilities, electrical service, and replacement of present windows with awning type, would be undertaken.

Because of existing foundations (including concrete) masonry walls "fairly adequate," (portion of Hill-Burton and accreditation, for patients beds, toilet facilities and service areas.

The building containing Core Facilities, and 40 beds would be erected, all new; then, when the present building is vacated, reconstruction to fire-proof as required, additional bath and toilet facilities, electrical service, and replacement of present windows with awning type, would be undertaken.

ALVIN HARRIS was the lucky winner of Everglades Motor Company's \$25.00 gift certificate last Saturday. Drawing was made by little Jackie Lockhart, daughter of Ford Salesman Douglas Lockhart. These gift certificate drawings are a weekly event at the Ford place, during the showing of their new Falcon Futura.

Do You Have Ants In Your Plants, Or Fleas In Your Lair? Read This

Even if you don't have ants in your pantry, you may have them elsewhere including your plants.

So inspect now. Look for the little black invaders as well as the big red ones. Often these pests are on ornamentals guarding "slaves" that are making honeydew for their captors. Ants harbor eggs of scale insects, mealybugs, whiteflies, aphids and leafhoppers in their nest during the winter to be sure of a spring and summer supply of sweet excreta.

Ant injury to plants is indirect. Ants keep the insect pests at full strength for destroying vegetables and ornamentals by practicing sanitation, fighting off natural predators and preventing an invasion of insect parasites.

Ants also invade lawns. Beside their painful sting, ants make unsightly hills that clutter up an otherwise perfect lawn.

Rotarians And Anns Ride The Waves - Air Or Water On First International Convention Held In Asia

The first convention of Rotary International, world-wide service club organization, to be held in Asia began next month (May 28-June 1) in Tokyo, Japan. It is estimated that more than 15,000 Rotarians and members of their families from some 50 countries will attend, with the registration from Japan alone likely to exceed 10,000.

For Rotarians and their families traveling from the United States and Canada - and their number may reach 5,000 - special transportation arrangements have been made by the North American Transportation Committee of Rotary International in cooperation with the American Express World Travel Service and Thos. Cook and Son.

These arrangements include travel by air and sea on more than 50 pre- and post-convention tours offering a wide choice of itineraries. The tours include travel around the world, around the Pacific and around Japan.

Sailings will be on the American President Line steamers "President Hoover," "President Wilson," and "President Cleveland" will be J. Edd McLaughlin, of Dallas, Tex., president of Rotary International, May 6, and Los Angeles May 7.

Members of the board of directors and other officials, one of the tours - a 43 day cruise of more than 13,000 miles - will be the special "Rotary Convention Cruise" on the S. S. "Chusan," of the P & O Orient Line. The ship will sail from Vancouver May 2, San Francisco May 6, and Los Angeles May 7.

The itinerary includes two calls at Hawaii, a visit to the inland sea region of Japan, and eight days at Yokohama, the arrival there being three days in advance of the opening of the convention. The ship will serve as a hotel for all passengers who desire to live aboard during the Yokohama stay.

In San Francisco, embarkation point for most of the Rotary tours, Rotarians of the area are arranging hospitality accommodations for Tokyo-bound Rotarians and their families. At the international airport an information booth will be manned by Rotarians and their wives. Also from May 15 through May 28, a ladies luncheon will be held daily at the airport by a different Rotary club to enable Rotary groups passing through San Francisco to enjoy the hospitality of Rotarians of the area.

Upon arriving in Yokohama, Rotary convention-goers will be greeted by Japanese Rotarians who have planned special features of welcome. Rotarians of Japan have been studying English for many months. One Tokyo class in English began with 25 Rotarians and their wives, and soon expanded to four weekly classes of 10 members each. "How far we have advanced in the knowledge of English," commented the class teacher, "is of small importance. Whatever we learn to say

will be useful in helping our visitors know us a little better."

The Tokyo gathering will be the 13th Rotary convention held outside the United States. The most recent one held outside the U. S. A. was in Lucerne, Switzerland, in 1957. Others have been in Paris, Mexico City, Rio De Janeiro, Toronto, Havana, Vienna, Ostend, and Edinburgh.

Imports Made Easier On Brucellosis Area Cattle

Florida cattlemen will find it easier and less expensive to meet brucellosis requirements on imported replacements for their beef cattle herds after May 1.

Commissioner of Agriculture Doyle Conner today signed a modified regulation, to be effective on that date, governing the importation of beef cattle into the state from modified certified brucellosis areas in other states can be handled as though they came from certified herds.

Imports of dairy cattle, Dr. Campbell pointed out, are NOT affected by the new regulation.

Previous requirements specified that any beef cattle imports be (1) calf vaccinates, or (2) originate from a certified herd with one negative test or (3) show two negative tests at point of origin (within 90 days and 30 days of shipment) and then be held in isolation for 30 days at point of destination and then undergo another test.

The attack aircraft carrier USS Franklin D. Roosevelt has sixteen decks, including the island superstructure.

CARD OF THANKS

I wish to express my sincere thanks and appreciation to all my friends and neighbors for the lovely flowers, the visits, cards and telephone calls during my recent illness in the hospital. The thoughtfulness and acts of kindness will long be remembered. I wish to especially thank Mrs. Carol Crissman and Mrs. Muriel Eggleston, RNs, for their services, on extra duty.

Newlyweds Mr. and Mrs. Lynn Dasher Are Making Their Home In South Bay

Mr. and Mrs. Lynn A. Dasher, newlyweds, are making their home in South Bay, following their wedding Saturday, April 15 at Clewiston.

The bride is the former Betty Jean Archer, daughter of Mr. and Mrs. N. Glyn Archer of Clewiston and Lynn A. Dasher is the son of Mr. and Mrs. E. E. Dasher of South Bay.

The 7:30 p. m. ceremony with the Rev. James A. Kimbrell officiating took place at the Assembly of God Church, Clewiston, attended by a host of friends and relatives.

Mrs. Lewis Kelly soloist sang "Ah, Sweet Mystery of Life" with Mrs. James Kimbrell accompanying and also playing the traditional wedding music. The church was decorated with arrangements of spring flowers.

Given in marriage by her father, the bride wore a short formal gown of white tulle, featuring a net overskirt and fitted bodice.

Gloria Taylor, George Emerson Wed In Nuptial Mass Saturday

Miss Gloria Taylor, daughter of Mr. and Mrs. J. M. Taylor of Clewiston became the bride of George Emerson, son of Mrs. Kathryn Emerson of Palatka at high noon at St. Margaret's Catholic Church, Clewiston.

Father Xavier Morris performed the double ring ceremony in a nuptial mass. The altar of the church was decorated with arrangements of white gladioli, Shasta daisies, chrysanthemums and palms.

St. Margaret's choir sang during the ceremony, an Ave Maria at the offertory, O Lord I am not worthy, at the communion, and Holy God, we praise Thy name, at the recessional.

The bride wore a floor length wedding gown of white lace over tulle, fashioned with a fitted bodice, square neckline adorned with sequins and full length sleeves. Her short veil of illusion was attached to a coronet of lace, embroidered in pearls and sequins and her wedding bouquet was an arrangement of white carnations, allium and orchids on a white prayer book.

Miss Margaret Pedrick was the bride's maid of honor in a pale blue silk organza dress, festooning a lace bodice with long sleeves cuffed in lace. She carried a cascade bouquet of pink Glade area.

Miss Doodle Brent Sets Wedding Date

The wedding of Martha Lynn Doodle Brent and Jerry Lee Pence has been set for Friday, June 16 at the First Baptist Church, Belle Glade. The ceremony will be held at 7:30 p. m. Other plans and attendants will be announced later.

Morning Shower Fetes Bride-Elect

Miss Carol Van Landingham whose marriage to Ralph Prescott will take place Saturday at 3 p. m. at the Community Methodist Church, was honored at a bridal shower Saturday a. m. from 10:30 to 12:30 at the home of Mrs. Frank Dooley.

Arrangements of snapdragons, gerbers and roses were used about the room. The honoree and her mother, Mrs. Alyce Huebner were presented coronets.

A lovely array of gifts were opened and displayed by the bride-to-be.

Dessert Card Party Benefits Library

A benefit card party for the library fund was given by Mrs. A. B. DeGraw and Mrs. Richardson at the home of the former.

Four tables of bridge and one of Canasta were in play. Winners of the Canasta game were Mrs. Lee Puckett, low. Bridge winners were Gladys Williams, high; Mrs. C. A. Bailey, low and Mrs. Marlan Chapman, lucky chair.

Beta Xi Chapter Pledge Ceremony Held

Mrs. E. S. Roberts and Mrs. Wilbur Mincey were formerly initiated into the Beta Xi Chapter of Beta Sigma Phi Sorority of Belle Glade at a pledge ceremony held last Thursday evening at the home of Mrs. Roberts.

Mrs. Robert Abel, vice president, presided at the ritual, assisted by Mrs. Mincey. Mrs. Rhodes, Mrs. Davis and Mrs. Vera Jones.

A business meeting preceding the pledge ritual was presided over by Mrs. Abel in the absence of the president. Announcement was made that Founder's Day Banquet was slated for Thursday April 27 at the Royal Palm Beach Inn.

Details concerning the annual May Day Dance which is sponsored by the Beta Xi Chapter, were completed. The dance will be held at the Army from 10 until 2 p. m. on May 13.

Among correspondence read was a letter from the committee of the State Convention which will be held in Ft. Lauderdale at Galt Ocean Mile Hotel on May 19-21. Several members expressed plans to attend.

Reports were heard from standing committees, with ways and means chairman, Mrs. Joe Baker giving final report on the bridge luncheon; Program chairman, Mrs. Mabley.

Surprise Stork Shower Honors Mrs. Mabley

Mrs. Eugene Mabley was honored at a surprise stork shower given at the home of her sister-in-law, Mrs. S. K. Butler, 408 S. E. Ave. E. Mrs. L. C. Butler, mother of Mrs. Mabley, had the cake of the shower, with the honoree, without her knowing of the event. Everything went according to plans.

Games were played and prizes won by Mrs. S. J. Davis and Mrs. Dennis Singleton. Mrs. Homer Brooks won a prize, which she presented to the honoree and Mrs. Earl Smith won a prize for special efforts. Mrs. Mabley opened and displayed the many nice gifts presented to her. Mrs. Tom Bond, Mrs. Joe Brewer and Mrs. Victor Cabildo assisted Mrs. Butler in serving refreshments of home-made spice, chocolate and white cakes, cheese-tarts and punch. The white cake was decorated and inscribed "Surprise, Ronnie."

Others attending were Mrs. Early Jones, Mrs. Amy Strickland, Mrs. Bobby Jones, Mrs. Earl Smith, Mrs. Audrey Haddon, Mrs. Manuel Salvador, Mrs. E. L. Johns, Mrs. Buck Norwood.

Newlyweds Residing In Orlando

MR. AND MRS. PETER ARNOLD KIRCHMAN

Miss June Darlene Acree and Mr. Peter Arnold Kirchman exchanged wedding vows at the Golfview Baptist Church Saturday, March 26 at 4 o'clock. The Rev. Harold A. Dunn, pastor, performed the double ring ceremony.

She is the daughter of Mr. and Mrs. Sam Acree of Golfview Park, Lake Wales; his parents are Mr. and Mrs. Arnold Acree of Belle Glade.

Baskets of gladioli and pom-poms, banked by palms and greenery formed the church entrance. A program of nuptial music was presented by Mrs. J. W. Crum, organist and Mrs. Robert Bolden, Jr., of Fort Lauderdale vocalist sister of the bride.

The bride, given in marriage by her father wore a street length sheath of pure silk organza, fashioned with an inset on back of skirt at the waist, which gave a short train effect.

Her semi-crown of organza leaves with seed pearls featured a circular veil edged with lace. She carried a prayer book ornamented with white roses, and wore a drop pearl necklace and matching earrings, a gift from the bride groom.

Miss Sammie Jean Acree was her sister's only attendant wearing a blue street length dress of nylon chiffon with matching headpiece and shoes. She carried a bouquet of pink sweetheart roses.

Mrs. Acree chose for her bridesmaid a blue silk sheath, shantung dress with white accessories. Mrs. Kirchman, mother of the bride groom wore a blue linen dress and white accessories. Both wore orchid corsages.

Terry Kirchman of Belle Glade served his bride as best man and his brothers were Hunter Latham of Belle Glade and Sidney Stanford.

Immediately following the ceremony a reception was held at the home of the bride. Guests were presented to the receiving line by Mrs. Herman Davis and Mrs. Mack Acree presided at the bride's table.

The couple after a wedding trip to the East Coast are residing in Orlando where they both are students at Jones Business College.

Out of town guests attending the wedding included Miss Bobbie Kirchman, sister of the bride groom, Mrs. Terry Kirchman, Ron Kirchman, Michael Wilson, Miss Linda Rhymes, Mrs. Pat Brent, Miss Doodle Brent, Jerry Lee Pence all of Belle Glade and Mr. and Mrs. Frank Thompson of Pahokee.

WATCH THOSE ROOTS Any tree can develop a root system capable of invading the field of your septic tank, Nixon Smiley advises in Tropical Planting and Gardening, published by the University of Miami Press. Useful special care and planning facts, which may even grow roots to your neighbor's tank.

Services and burial will be conducted at Chipley, Fla., at 2 p. m. Sunday with Elmhurst Funeral Home in charge.

The remains were shipped to Chipley by Williams-Wetherington Funeral Home in charge of local arrangements.

Kahn's Feature Fashion's Latest

Black and white appear again as fashion's favored colors for the spring season.

In keeping with the trend and to emphasize the up-to-date merchandise carried at KAHN's stores, Alfred Kahn, manager of the Belle Glade store has created an attractive black and white display in their window this week. A photo of this appears on another page of this issue.

Energetic, and with modern merchandising ideas, Alfred is doing his utmost to bring a 20 town atmosphere to their store here, pointing out more emphatically the nationally advertised brands they carry which are the identical same in price and quality as you get in town.

Just another reminder - LET'S SHOP AT HOME!

Florida's agricultural production for 1959-60 exceeds \$814, 149,000 - the second largest record ever recorded in the state.

Over 250 Attend Party For Newlyweds Mr. and Mrs. Geo. Emerson At S. Bay

More than 250 guests attended a party and celebration Saturday afternoon and evening given by Mrs. Catherine Emerson of Palatka honoring her son and new daughter-in-law, Mr. and Mrs. George Emerson following their wedding at Cleveland, Saturday April 22.

The South Bay American Legion Hall was decorated in a "Garden Wedding" theme for the event. Large silver and white wedding bells and cut out flowers decorated one wall, and painted cardboard characters of the wedding couple on a blue background with gold stars centered the main wall. The wall behind the buffet table was decorated with a large reproduction of a white and gold bible, monogrammed "Happiness for the Emersons." Suspended from the ceiling for the main attraction was a cutout of a cardboard card ready for departure with miniature tin cans and shoes. Tables were centered with wild yellow poppies, lavender passion blossoms and fern and dove arrangements.

Guests consisted of potted palms and gardenias. Decorations were created by Mrs. Kay Sellers, chairman and Mrs. Sam Henderson. A buffet dinner was served from 3 p. m. to 3 a. m. with turkey and dressing, baked ham and all the trimmings, and various drinks.

Out of town guests included Mr. and Mrs. M. J. McMichael, Jr., of Miami, Mr. and Mrs. Joseph McKoy of Secaucus, N. J., Mr. and Mrs. George Maschuci, Frances and Joseph, of Arlington, N. J., Mr. and Mrs. Edmond Emerson and Maureen and Kenneth, Mr. and Mrs. K. B. Gilson, Belle Glade, Troopers and Mrs. Edna Walker, Mr. and Mrs. Jeff Emerson, Jr., Mr. and Mrs. Jeff Emerson, Sr., and Jennifer, Peggy, Mary and Frank all of Palatka; Leonard Wilkenson and Lenore McAllen of Jacksonville; Mrs. Joe Roper and Eddie Gallapay both of Canal Point; Mr. and Mrs. Milton Wilkenson of Belle Glade; Troopers and Mrs. Edna Walker, Troopers and Mrs. Jim Jones all of Belle Glade; Trooper and Mrs. Dianne Jackson of Stuart.

South Bay School Host At Bar-B-Q For PBC Principal's Association

The South Bay School was host to the Palm Beach Principal's Association Tuesday afternoon. A Barbecue dinner was served to the principals and supervisors of the county. Mr. Howard L. Watkins, superintendent of Public Instruction; Mr. Clyde Harris, Assistant Superintendent; Mrs. Clara H. Capron, Director of Instruction; and Charlie M. Wilson, Director of this meeting.

Mr. Pellon Morris, Principal of the Belle Glade High School, the chairman of the Principal's Association and conducted the meeting.

Special thanks to the following people who donated produce for this Barbecue: Mr. Frank Wilson of W. R. Wilson and Sons Doyle Conner sold produce buyers, food editors and housewives of New York City on Florida's contributions to the Nation's food tables during a visit to the Manhattan area this week-end.

Commissioner of Agriculture James Sumner who donated the beans and South Bay growers for the celery. Mrs. Alice Neider tables during a visit to the Manhattan area this week-end.

Conner was participating in the "April is Agriculture" month at the Florida Showcase exhibit in Rockefeller Center. He also visited the New York market areas and talked to produce buyers attending a fruit convention one of the piers. Conner ended his trip after visiting several grocery stores where he talked to housewives about fruits and vegetables grown in Florida.

Many Florida agricultural groups contributed to the program by furnishing the commodities used at the various receptions and meetings.

Conner termed his initial venture into one of the major markets of the country a "complete success." Here we were in personal contact with those who buy, promote and use Florida agricultural products. They told us what they thought about our products and suggested ways and means of improving our marketing and merchandising of them.

"Such information is invaluable and I'm sure that it will result in more sales of our fruits and vegetables and more income for our producers," said Conner.

Mr. and Mrs. James Martin and family had as their weekend guests Mr. and Mrs. Durrah Martin and Patsy of Avon Park.

Mr. and Mrs. T. C. Collinsworth spent the weekend in Mulberry with their daughter and family Mr. and Mrs. Johnny Singletary and took Little Sue Singletary home after she spent a week with them.

Mr. and Mrs. Leroy Rhodes and family of Cleveland spent the weekend with their parents, Mr. and Mrs. J. B. Rhodes, Sr., and Mr. and Mrs. J. C. Thomas.

Mr. and Mrs. Alfred Vadaz and Karol had as their dinner guests Saturday night Mr. and Mrs. Solie Corbin of Belle Glade Corbin, who is on leave here before reporting for duty at Seward AFB, Nashville Tenn.

SALUTE TO FLORIDA COUNTIES • LEON

COUNTY SEAT TALLAHASSEE

Leon County, located in Northwest Florida, was formed in 1824 and named for the Spanish explorer, Ponce de Leon, the capital of the Apalachee Indian nation was located here when Hernando De Soto visited the area in 1559.

The town of Tallahassee was established by Seminoles Indians, and in 1824, two years after the United States purchased Florida, it was selected as the state capital. Today it is still the seat of government for the great state of Florida and is the site of two large state educational institutions.

In progressive Leon County, and throughout the State, the people of Florida are working constantly to maintain the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement is in the best interest of the people of Florida, the Association stresses law enforcement in the areas of liquor, law enforcement and governing officials.

During a recent visit to Shell Oil Company's Louisiana offshore oil producing facilities in the Gulf of Mexico, Paul Sasser (left) of Glades Oil Company, Belle Glade, and L. Ball Sasser, District Manager in this area, learn about heat-treating units (background) from H. R. Gates, a Shell engineer. In the course of the trip Sasser saw actual drilling operation from the company's offshore wells, receive intermediate processing before entering pipelines. The trip, which covered two days, provided Sasser with a better understanding of the many facets of oil production and refining.

Benefit Talent Show Presented May 5th

Remember the date - Friday, May 5, at 8:00 p. m. in the high school gym! That is when Belle Glade will see a stellar display of talent at the Faculty Talent Show.

Outstanding performers from grades 7 through 12 will present musical, dramatic, and humorous acts, and there will also be some dancing and twirling.

An added bit of entertainment will be seen when certain faculty members display their great dramatic "C" ability.

All proceeds of this talent show go to the faculty scholarship fund. Each year the faculty presents a scholarship to an outstanding graduate of our high school. "It is earnestly hoped that the entire student body and community will give their wholehearted support for this worthy cause. (Besides, you will enjoy it!)" A faculty member said.

Tickets are 40c and 75c and may be purchased from any faculty member.

Visitation Program At Baptist Church

A visitation program is being held every Monday night with members meeting at the First Baptist Church at 7:30 before going out to visit in the community.

Immediately after the program at 8:30 Monday night Sunday School Superintendents and vacation Bible School Superintendents are to meet in Mrs. Earwood's Sunday School Room for an important meeting. All superintendents are requested to be present.

A combined meeting of the Intermediate and Young people will be held in the Recreation Hall, Sunday night April 30 at 9 p. m. following evening services. A motion picture film in color will be shown.

Steady To Higher Marks Sale Of 824

At Monday's sale of 824 head, slaughtering took 46 percent with 54 percent going to stockers, with all steady to higher, for a total sale price of \$51,004.50.

The market is liquidating the Santa Gertrudis herd of Terry and Herbert Gibson; they're good but not registered animals. Good slaughter steers brought 22 to 23.55, while three good stockers went for \$22; a choice slaughter calf brought \$30, while good went for \$24-\$25.

Slaughter: Steers 125, Heifers 46 Calves 88, Cows 98, Bulls 20.

Stockers: Steers 160, Heifers 58, Calves 198, Cows 18, Bulls 15.

10 percent of the run was cows; 84 percent of these went to Slaughter.

Slaughter: Steers: Good 22.00-22.25, Std. 20.00-22.75, Uty. 18.00-20.25, Cut. 15.00-17.10.

Heifers: Std. 18.00-20.00, Uty. 16.00-18.00, Cut. 14.75-(One). Calves: Good 30.00-(One), Good 24.00-28.00, Std. 21.00-25.50, Uty. 16.00-22.00, Cull 10.00-15.10.

Cows: Uty. 17.25-18.75, Cut. 15.00-17.50, Can. 12.00-15.50.

Bulls: Uty. 15.25-21.50, Cut. 17.25-18.50, Can. 15.50-(One).

Stockers: Good 22.00-(Three) Med. 18.00-22.50, Can. 15.00-20.50, Inf. 15.00-16.50.

Heifers: Med. 17.00-19.00, Can. 14.75-17.25, Inf. 10.00-14.00.

Calves: Good 24.25-26.00, Med. 22.00-30.00, 20.00-25.00, Can. 13.25-24.00, 16.50-19.00, Inf. 14.00-19.00.

Cows: Can. 14.75-16.00, Inf. 10.00-14.00, Bulls: 14.00-20.00, Dairy Cows: Uty. 16.50-17.50, Cut. 15.75-17.00.

Sweet Corn Field Day May 4 At Ev. Station

There will be a sweet corn field day Thursday morning, May 4th, at 9:00 a. m. at the Everglades Experiment Station grounds for the purpose of showing the corn growers the new varieties and the sweet corn breeding experiments.

Dr. Vic Guzman and Mr. Emil Wolf will be on hand to show you their work. It is hoped that the corn growers can attend and express opinions of the corn varieties.

Dr. David L. Rowe, MD. Returns To Practice

Word has been received here that Dr. David L. Rowe who formerly practiced in the Glades with Dr. Greenberg, will be back May 3rd a scheduled twice-weekly professional visit to Belle Glade from Ft. Pierce.

Dr. Rowe's office will be the same as when he formerly practiced here at 117 S. W. Third Street and his visiting days are announced as Wednesdays and Saturdays.

Smathers Opposes

tary is shaping his course to support this idea.

While generally favoring higher wages, I am against an extension of coverage into areas which I do not believe fall into the category of interstate commerce. Any attempt to regulate wages in intra-state business is, in my view, a state matter under the Constitution of the United States.

We are also faced with the prospect of increased unemployment if we attempt to extend coverage into areas such as hotels, motels, service organizations and the like, especially those in which tips form a large part of the compensation. Employers would naturally have work forces to the bone.

NEGRO NEWS

Lt. Napoleon Rhodes Gets New Commission

Army 2d Lt. Napoleon D. Rhodes, son of Mrs. Cleo Rhodes at South West Avenue E. Belle Glade, Fla., completed the officer orientation course at The Engineer School, Fort Belvoir, Va., April 1.

The course familiarized Lieutenant Rhodes with the duties and responsibilities of a newly-commissioned Engineer Corps officer.

The 22-year-old officer is a 1956 graduate of Lake Shore High School, a 1960 graduate of Florida Agricultural and Mechanical University in Tallahassee, and a member of Phi Beta Sigma fraternity.

High grade cattle are largely "red" in, while high quality beef cattle are "bred" in. Florida's beef cattle have been bred consistently both ways.

Oak Ridge Science

(Continued from Page One)

course with the five ORINS-sponsored teachers were 22 other science teachers sponsored by their respective state of local school systems. They are carrying out "traveling teacher" activities also, but will confine their demonstration lectures to schools within their sponsoring systems. The five ORINS "teachers-at-large" will visit schools in Alabama, Florida, Mississippi, New York, North Carolina, South Carolina, Tennessee, Pennsylvania and Virginia.

The Oak Ridge Science Demonstration Lecture Program, now in its fifth year, has recently been expanded to provide training on a year-round basis.

Three training sessions are conducted annually (summer, fall, and winter) and science-teacher representatives of state and local educational systems who, upon completion of the thirteen week training program, return to their home grounds to provide special training and advisory services to schools in their territory are eligible for participation.

Financial assistance to participants during the period of training, and the cost of training and equipping the teachers in Oak Ridge is assumed by the National Science Foundation. The program is conducted by the University Relations Division of ORINS, which is a non-profit educational corporation of 17 southern universities.

PTA Board Meet Monday

The Executive Board of the PTA will meet in the teachers' lounge at the High School Monday afternoon at 3 p. m. according to Mrs. Mina Murray, PTA president.

Improved Hospital

(Continued from Page One)

Burton allowance plus one half of 46 excess eligible beds. The south end's present tax-exempt share of the ten-year plan, for the first year, would be \$38,553 of \$206,432 or \$185,400 against \$123,600.

On a home, assessed at \$15,000, with a homestead exemption of \$5,000, present tax on each district is 3.2 mills or \$3.20. Under the Close Plan \$4.00 would be added to make \$7.20; under the combined plan \$5.54 would be added making a total of \$8.74.

On a section of land assessed at \$100 per acre the difference will be \$554 against \$256.

If we are to have modern hospitals we must pay more, and everyone agrees that we must have more service.

Here's a comparison of facilities under two plans discussed and company of costs - make up your mind where you'll stop and how you're willing to travel.

Story Book "Operations"

(Continued from Page One)

er and the Board.

3. Strengthens laws on improper compensation and bribery not "to legislate morality" - but to lesson the frequency of improprieties.

4. Require State to provide rights-of-way, and to do it immediately to prevent speculation and other "monkey-business."

5. In determining value of property taken, allowance to be made for enhancement of that which is left.

The archaic system now in use to consider the value of a new road to portions of land left, after the right-of-way, then write to our House Members Roberts and Thomas and to Senator Blank expressing your opinion.

They want to know YOU think about these things.

If you think our Road Department needs a "Boss" answer language, parchment paper and enable to our Cabinet alone, the acquisition of rights-of-way by the State under strict regulation.

AND authority to take in consideration the added value of a new road to portions of land left, after the right-of-way, then write to our House Members Roberts and Thomas and to Senator Blank expressing your opinion.

They want to know YOU think about these things.

It matters not the high-flown language, parchment paper and perfumed envelopes - just state your opinion as a taxpayer, on wrapping paper if necessary.

Patrons identify engine deposits. Electrons are beamed at them. The beam is then deflected onto film. From this picture, scientists learn composition of deposits, and how to neutralize them.

NEW TCP!

Weird electron "pictures" help Shell scientists develop improved TCP for today's Super Shell — to give your car top performance

Read how electron diffraction revealed the inner secrets of the combustion deposits in your car's engine. How new, improved TCP was developed to neutralize these deposits, prolong spark-plug life, increase mileage—and release up to 15% more power.

Here's the full story of today's Super Shell—and the nine ingredients that give your car top performance.

True TCP in today's Super Shell does its job better than ever. It neutralizes certain deposits of combustion deposits—deposits that can prevent you from ever knowing your car's top performance.

There's not a single engine with more than a few thousand miles on it that doesn't have this type of deposit in its combustion chamber. These deposits can cause trouble when you need power most. The deposits glow red-hot and set off the fuel before the spark plug has a chance to get into the act.

The experts call this pre-ignition. The explosion punches the piston on the way up. You feel meet head-on. No wonder your power falls off.

Deposits can also cramp your car's performance by short-circuiting the spark. What happens? No firing—your car gives up.

Problem? How to add something to gasoline that neutralizes the effects of deposits. The answer: Shell Research.

A scientific detective story

Shell scientists announced the first TCP's additive eight years ago, after research had proved that it could virtually end this misfire problem once and for all. TCP was hailed as the greatest gasoline advance in thirty-one years. Now Shell has improved it.

Scientific detectives like the electron "photograph" (above) made new, improved TCP possible. They helped Shell scientists to look engine deposits right in the face. And to find how best to neutralize them.

What today's TCP can do

Tests have already proved that TCP can help you get up to 15 percent more power, up to 17 more miles per tankful. And it can make plugs last up to twice as long.

Yet TCP is only one of nine ingredients in today's Super Shell. Read about the others. And how each helps your car deliver its top performance.

#2 is "cat-cracked" gasoline for power with a purr

This is petroleum that has actually cracked under 900-degree heat and catalytic action. Its heavier molecules have been shattered into livelier, lighter ones.

The result is a super-octane ingredient that makes your engine purr with power the moment you put your foot down.

NOTE: "Cat-cracked" refers to the use of a catalyst—a chemical substance that can alter molecules without changing itself.

#3 is Alkylate, noted for knock control in hot climates

Jimmy Doolittle helped pioneer this high-octane ingredient for Shell aviation fuel.

Alkylate—which took the dream of 100-octane gasoline out of the lab and put it into the skies—is now in Super Shell. It controls knocking in hot engines at high speeds far better than anything else available.

NOTE: Speaking of high speeds, car engines frequently turn even faster than the engines of DC-7's. Think of this next time you pass a car.

#4 is anti-knock mix for extra resistance to knocks

You might think that two high-octane ingredients are enough for knock-free performance. But Shell's scientists have added a musician.

They insist on adding a special anti-knock mix. A mix, so effective, one teaspoon per gallon can boost anti-knock rating by five points.

This mix has the tricky job of regulating combustion so that Super Shell gives each piston a firm, even push—rather than a sharp blow which would cause a knock.

#5 is Butane for quick starts on cold mornings

Butane is so eager to get going that Shell keeps it under pressure.

unstable elements to help keep them from clogging. No clogging—no gum problem.

#9 is Platformate for extra energy, more mileage

It takes eight million dollars' worth of platinum catalyst for Shell to produce Platformate. But fortunately for our pocketbook and yours this precious stuff can be used over and over again.

The platinum re-forming process, which gives Platformate its old name, converts petroleum into super-energy components—such as benzene, xylene and toluene.

These three alone release 11 percent more energy per gallon than the finest 100-octane aviation gasoline. Energy that shows up as mileage.

Test Super Shell for yourself

Try Super Shell next time you fill up. You'll soon feel and hear a difference in the way your engine runs. The difference is top performance.

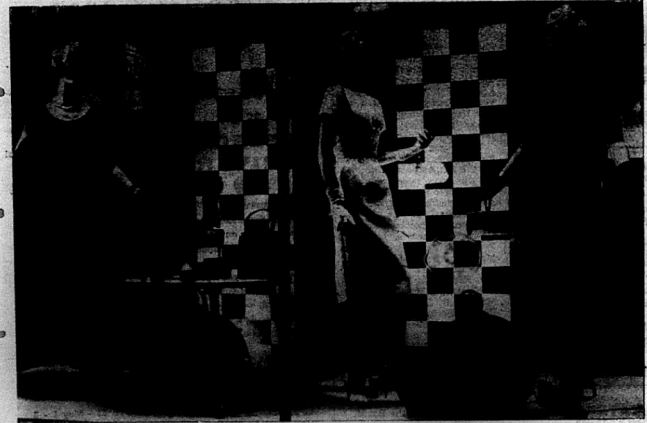

A BULLETIN FROM SHELL RESEARCH

—where 1,000 scientists are working to make your car go better and better.

*Trademark for Shell's unique gasoline additive. Gasoline containing TCP is covered by U. S. Patent 2,998,826.

Black And White Newest In Fashion Trend

KAI'S STORES OF PALM BEACH AND BELLE GLADE, FLA. ARE NOW SHOWING THE NEW FASHION TREND OF BLACK AND WHITE. The above photo is the window of black and white design now being featured in the Belle Glade store. Merchandise shown in the window display includes dresses by Jonathan Logan and Jerry Gliden; luggage by Samsonite; gloves by Kayser Roth; shoes by Trollinger; and accessories by Buxton. (Pd. Adv.)

Inter-Racial Council Slates Annual

Public Program April 30 At 3 P. M.

Marion A. Wright of Linville Falls, North Carolina, who has been doing an outstanding job with the Southern Regional Council since 1953 will speak at Belle Glade's Inter-Racial Council Public Program, Sunday afternoon, April 30th, 3:00 p. m., at the Lake Shore Elementary School Cafeteria.

A Girls' Quartet from Belle Glade High School, a Vocal Ensemble from Lake Shore High School, and the Lake Shore Band will furnish musical numbers for the program.

Mr. Wright, a retired lawyer, has labored on many worthy causes. He is Past-president of S. C. Citizens Library Movement, and S. C. Conference on Social Workers, is chairman of S. C. Library Board and on the Commission on Adult Education.

The Southern Regional Council of which he is presently vice president, is working at the regional level toward goals similar to those of Inter-racial Council at the local level. . . better understanding between racial cultural groups in the South, better opportunities for all, and a spirit of good will and cooperation in tackling the problems we face.

The Southern Regional Council is not a fly-by-night or rabble rousing organization. It started in Atlanta more than 20 years ago and has spread throughout the South. It has worked consistently for a sober, reasonable approach to human relations problems and has often been a successful mediating influence in areas of tension and conflict.

The Belle Glade Inter-racial Council which is sponsoring this program cordially invites the public to come. During the past year the Inter-racial Council has been working on the problem of Day-care for pre-school children in Belle Glade; they sponsored the award winning film, "Power Among Men," and raised money toward problem of retraining our labor to meet the changing demands for labor.

It is native American labor cannot be trained to meet the changing demands for labor, there is considerable fear that off-shore labor will be brought in and domestic labor will create a serious social and welfare problem.

In March, 1953, Navy medical officers and corporals took an active part in the relief work following an earthquake at Long Beach, California.

There are over 50,000 "ground real estate brokers and salesmen in the state of Florida. . . This and many other items of information come to you monthly from FLORIDA CONFIDENTIAL AND REPORT. . .

FLORIDA CONFIDENTIAL AND REPORT has no political purpose. . . with vision, candor and with no misgivings concerning pertinent information which every potential investor, home or business buyer, business opportunist or one about to retire should have before making a positive move.

Senior Girl Scouts Report Highlights Of Weekend Camp

Members of Troop 133 heard reports on the recent Senior weekend at camp, and made plans for a bake sale and car wash in May to finance a camping trip to end the year's activities.

Six girls from the troop attended the council-wide weekend recently at Camp Welaka and reported a lot of fun and exchange of ideas.

At the Saturday morning session, the girls discussed council and inter-council activities, and pre-primary try-outs on May 20 for National Roundup to be held in Button Bay State Park Vermont in 1952. Copies of a senior newspaper contributed by troop reporters and assembled and mimeographed by Troop 239 were distributed.

Swimming in the camp's lake was planned for the afternoon but when the girls discovered how cold the water was, sunbathing became a more popular activity, along with hiking in the woods and canoeing on the river.

Lake Istokpoga Area Flood Control Near Completion

A network of primary canals the State matching 20 per cent. Size of some of these spillways can be judged by Structure 84 which outfalls into the Kissimmee River and cost about \$300,000.

More controls of Lake Istokpoga will bring a great degree of protection to the rich farmlands south of that Lake, and local planning of secondary water control works to tie in with the FCD primary canals is already under way.

Cattle farming in the area is already being boosted, and citrus groves are now being planted in some parts because of the coming of a primary water control system.

The three main works in the network are Indian Prairie (C-40) Harney Pond (C-41) and Slough (C-41A) Canals. Indian Prairies and Harney Pond Canals are already complete, and Slough Ditch Canal is now well under construction.

The many big spillways in the system will not only control flood runoff, but also prevent overdrainage and make irrigation possible in drought periods.

The works are being constructed for the FCD by the U. S. Corps of Engineers at a cost of \$7,380,000 with 80 per cent of actual construction cost being paid with Federal funds, and

ing program is to help students, parents, and school personnel to identify the pupil's most significant talents, aptitudes, and abilities.

The results of the tests were given out to the students of Belle Glade High School on April 19, 1951 in a report that is directed to the parents. In this report the tests are explained fully and the individual student's standing on each of the tests has been indicated. Parents are also invited to consult with the guidance office if further information is needed.

In Service

Pvt. Martin McBride, son of Mrs. Mildred Hughes, spent a few days here before returning to Homewood, Illinois, after attending the funeral of his uncle, John Allen, of Bronson, Florida.

Army Pvt. James H. Kersey, son of Mr. and Mrs. C. S. Kersey, South Bay, Fla., is receiving eight weeks of advanced individual armor training at Ft. Knox, Ky. The training is scheduled to end June 1.

Kersey is receiving experience in driving the Army's medium tank and is becoming proficient in firing the .30 and .50 caliber machine guns and the 90 millimeter tank gun.

The 18-year-old soldier entered the Army last December and completed basic combat training at Fort Benning, Ga. He attended Belle Glade High School.

Army Specialist Four Buckley A. Hood, stepson of Earl Hendry, Clewiston, Fla., is scheduled to participate from May 1-15 with other personnel from the 101st Airborne Division's 501st Infantry in Long Thru, a NATO training exercise in Europe.

Long Thru, which will be conducted from April 24-May 20, is designed to test the capabilities for reinforcing NATO defenses with forces located in the U. S. Personnel from the division stationed at Fort Campbell, Ky., will be airlifted to Europe to participate in the exercise.

The 101st, a major Strategic Army Corps (STRAC) unit, constantly maintains in immediate readiness for redeployment to any area of the world.

Hood, regularly assigned as a mortar gunner in the infantry's Company A at Fort Campbell, entered the Army in February 1949.

The 20-year-old soldier attended Clewiston High School.

Molly Forsee Initiated Into Kappa Delta Pi

Miss Molly Forsee, student at Murray State College, Murray, Ky., has been initiated into Kappa Delta Pi, honorary Educational Fraternity for Junior-Senior and graduate students, who show high scholastic ability with a 3.2 average or better and professional leadership. Miss Forsee is the daughter of Dr. and Mrs. W. T. Forsee, Jr.

Clothing For Children HD Topic Friday A.M.

"Clothing for Children" will be the subject of a talk given by Mrs. Howard Burgard, Assistant Home Demonstration Agent, Palm Beach County, from 10:00 to 11:00 a. m. on Friday, April 28 at the Mounts Agricultural Building, 531 North Military Tr.

Mrs. Burgard who has young children of her own, will stress the points to be considered in the careful planning and selection of children's clothing, in order to get the most value for the least money. This would apply whether clothing is to be bought ready-made or sewed at home.

This is the last in a series of three interest group meetings especially for young homemakers, open to the public free of charge, and sponsored by the County Home Demonstration Office.

Fire Department Honors Retired Chief

HIS FAVORITE FIRE NOZZLE, polished and mounted on a plaque, was presented to L. E. Will, retired Fire Chief of Belle Glade Fire Department, by Cecil Blair, new Fire Chief, left, with Adair Leffingwell, president of the Volunteer Fire Dept., looking on. The plaque was inscribed "To L. E. Will for outstanding gratitude for your untiring efforts in behalf of the B.G. Volunteer Fire Dept. 1930-1951." The presentation was made at a farewell supper with all the regular and volunteer members of the fire department and their wives present.

Memorial Rites Held For Richard Hodges, Jr.

An impressive Memorial Service for their deceased brother, Richard E. Hodges, Jr., was held by the Lake Okechobee Chapter of Demolay at the Masonic Temple Monday at 8 p. m. More than 100 attended the rites. The Rainbows Girls participated as the choir.

Preceding the memorial service the Chapter held a brief business meeting with Steve Weeks, Master Counselor, presiding. Dan Willis was named to the office of treasurer, formerly held by their departed member.

The Chapter will purchase a new "Crown of Youth" which will be dedicated as a memorial to Brother Richard Hodges.

SAFEGUARDS AGAINST COMMONEST CANCERS

SITE	DANGER SIGNAL	SAFE PRACTICES
COLON AND RECTUM New Cases* 70,000 Deaths* 35,000	Change in bowel habits; bleeding.	Annual checkups, including rectoscopy.
SKIN New Cases* 66,000 Deaths* 4,000	Sore that does not heal, or change in wart or mole.	Annual checkup, avoidance of over-exposure to sun.
BREAST New Cases* 63,000 Deaths* 24,000	Lump or thickening in the breast.	Annual checkup, monthly breast self-examination.
LUNG New Cases* 47,500 Deaths* 34,000	Persistent cough, or respiratory ailment.	Annual checkup, chest x-ray, learn facts on smoking.
UTERUS New Cases* 40,000 Deaths* 14,000	Unusual bleeding or discharge.	Annual checkup, including pelvic examination and "Pap" smear.

*Estimated for 1961. (When lasting longer than two weeks see your physician).

AMERICAN CANCER SOCIETY

FLORIDA'S WEATHER

By Roland L. Anderson
Research Associate with the
Department of Electrical and
Engineering, U. of Florida

The seasonal distribution of rainfall shows that 53 percent of the state's average rainfall of 53.46 inches occurs during the four-month period, June through September. November is the driest month with an average of 2.23 inches, and July is the wettest with 7.46 inches.

Two regions of maximum rainfall are noted, one over extreme northwest Florida, and the other over the eastern half of the Everglades with annual amounts exceeding 65 inches. Most of the summer rainfall comes in the form of thunderstorms which, on the average, occur on about half the days at a given station. Showers are often heavy but usually last only an hour or two. They generally occur at the hottest part of the afternoon frequently causing a 15 to 20 degree drop in temperature, thus insuring comfortable weather for the remainder of the day.

The more severe thunderstorms are sometimes accompanied by hail which often inflicts rather serious local damage to crops. Rainfall during the remainder of the year is usually associated with extratropical storms moving eastward over continental districts, and occur on about one day in four. There are occasional very heavy rains almost always associated with tropical storms.

Snowfall in Florida is rare though measurable amounts

have fallen in extreme northern sections on the average of once in seven years, and a trace of snow is recorded as far south as Fort Myers. The greatest snowfall in Florida occurred in February, 1899, when 4.0 inches were recorded at Lake Butler in Union County and 0.5 inch at Bartow in Polk County. Exactly 50 years later to the day, 1 to 3 inches of snow was recorded across northern Florida.

High local winds of short duration occur occasionally during all seasons of the year in connection with the thunderstorms. Tornadoes and waterspouts also occur, averaging about 9 or 10 per year. However, tornado paths in Florida average only about one-thirtieth of the nationwide average in area exposed. They usually remain in contact with the ground only a very short period, and consequently cause little damage.

Tropical storms produce the principal winds of high velocity. They are often destructive - one reason being that high winds may persist for several hours during the passage of a hurricane. However, high winds are usually confined to paths averaging only 40 to 100 miles in width, and water to the day 1 to 3 inches of snow was recorded across northern Florida.

Too Late To Classify

By Russell Kay
Physicists know a new electronic device as the maser but to the layman a better name to apply to it would be the "Amazer" for it is revolutionary to average mental grasp it becomes truly amazing.

The maser is so new that scientists themselves cannot be sure to determine all of its eventual applications in a variety of fields.

Experiments are being conducted in several laboratories to determine where and how it may be used effectively. Bell Telephone is using it to develop a beam of light so intense it heats a piece of carbon into a vapor in one millionth of a second. Carbon vaporizes at 7,500 degrees Fahrenheit.

Another laboratory is using it in the test of a small experimental radar that enables them to study the details of an object the size of a kitchen table from several miles away.

In the fields of communications it gives promise of the development of a cable capable of carrying 100 million telephone calls simultaneously while present cables can carry only 100.

The maser according to scientists is a relatively simple device that stems from basic discoveries made some time ago by Albert Einstein and Max Planck, who found that atoms contain varying amounts of energy, some high level and others low level. They noted that the energy status of some atoms could be altered and their energy increased or decreased by absorbing an outside signal.

Dr. Charles Townes of Columbia University took it from there and developed the maser which greatly strengthens and amplifies microwave.

By use of the maser scientists are able to bounce signals off Echo I which could have been difficult to do without it. Other scientists have used it successfully to amplify signals from distant stars, picking up signals from distances three times fur-

ther than was ever before possible. The device has also been used to measure the amount of energy given off by the planet Jupiter.

In addition to amplifying radio light waves, the masers are capable of producing signals that are one million more times as sharp as ordinary signals. It can produce a light beam so intense it could be focused on a hole 50 millionths of an inch in diameter.

In the field of medical science the maser gives promise of aiding the surgeon enabling him to cut through tissue in fractions of a second with smaller scars.

Scientists estimate that another 10 years of experimentation will be necessary to get all the bugs out and find practical applications. The device is so new that only the fringe of possibilities it offers have been explored.

No single development in years has aroused so much interest among scientists, and in laboratories throughout the nation eager scientists are exploring every avenue in which the maser gives promise.

Dr. G. C. Dacey of Bell Laboratories states, "The maser's effect on man's life can't even be calculated yet." They promise to greatly increase the usefulness of light and radio waves and continued experimentation and exploration by physicists in varied fields will surely see to it that the maser continues to deserve the title, "Amazer."

This abundance of sunshine in winter and spring contributes greatly to the popularity of the state as a winter resort.

The Sunshine State. Records available indicate that the sun shines about two-thirds of available sunlight hours during the year. Although this percentage is not higher than in some other states, the length of day operates to Florida's advantage.

In this respect of winter sunshine is in great demand, the sun can shine longer in Florida than in northern latitudes. For instance during January the time between sunrise and sunset is more than one hour greater in Florida than it is in the latitude of the Great Lakes. In Summer of course the reverse is true.

Nat'l Library Week Brings Donations And Gift To Library

In honor of National Library Week, Mrs. Arminia Creech and her daughter, Miss Sara Lee Creech have donated a year's subscription to the American Heritage Junior Book Club to the Belle Glade Public Library.

The Library board extends the Creeches warm appreciation for the gift, and also to the ladies who have raised a total of \$119 to date for the Library by giving benefit card parties in recent weeks.

Among the hostesses are Mrs. George Wedgworth, Mrs. Bert Roemer, Mrs. Howard Payne, Mrs. Clarence Kiddier, Mrs. J. I. Redmond, Mrs. Thomas Brier, Mrs. C. A. Bailey, Mrs. J. R. Orsenigo, Mrs. Bill Bailey, Mrs. A. B. DeGraw and Mrs. Richard Fowles.

A large number of new juvenile and adult books are being added to the library shelves as a result of their efforts, according to librarian Mrs. Bettie Harris. Previously the Belle Glade Public Library has added \$100 to the book fund and was gratefully received by the Board.

U. S. Marines mounted on camels escorted an American diplomat's mission into Abyssinia in 1903.

HOMETOWN AMERICA

How To Prevent Mildew Is Topic Of HD Club

"How To Prevent Mildew" was the topic of the program presented by Miss Miriam Lopo, assistant County Home Demonstration Agent at the regular monthly meeting of the Belle Glade Home Demonstration Club held at the home of Mrs. Milton Giese, president. Miss Lopo gave an informative talk on how to prevent mildew and mold, how to get rid of it and what to use. A sewing class was also held on the basic pattern.

The group after a discussion voted that next year's topic would be on "Clothing and Home Management". Arrangement was made, the next meeting will be on May 18 at the home of Mrs. Bill Hern.

Attending the meeting were Mrs. Dean Alford, Mrs. Della Altman, Mrs. W. R. Hooker, Mrs. Arthur Zumpf, Mrs. Ray Browne, Mrs. Bill Hern, Mrs. Velma Tyler, Mrs. Pat Burke and a visitor, Mrs. Burke's mother, Mrs. Moore.

Rebekahs Plan Rummage And Cake Sale Saturday

At the regular meeting of Belle Rebekah Lodge held at the Community Club House plans were made for a rummage and a cake sale Saturday, April 29. Mrs. Betty Pitts, noble grand president.

Mrs. Edna Bass and Mrs. Genevieve Whitworth, presented the program and gave out numbers with Mrs. Myrtle Howard winning the luck number. Mrs. Whitworth read a poem on "Friendship" which concluded the program followed by refreshments served by the hostesses.

Contained in the hull of the huge alt aircraft carrier USS Franklin D. Roosevelt are 242 miles of electrical cable, 2,000 electric motors and a generating plant capable of supplying electrical power to 4 million homes.
